SHREYAS C N

DATA ANALYST | RESEARCH ANALYST | BUSINESS ANALYST

+91 8431990033 |Bangalore |shreyascn2005@gmail.com |LinkedIn |Github

SUMMARY

Information Science graduate with hands-on experience in Excel, Power BI, PostgreSQL and Python. Skilled in data cleaning, transformation, EDA, KPI reporting, dashboard development, and business insights. Built four end-to-end analytics projects across sales, retail, healthcare, and financial data, turning raw datasets into actionable recommendations.

EDUCATION

- **B.E. – Information Science Engineering** 2022–2026
  Dr. Sri Shivakumara Mahaswamy College of Engineering, Nelamangala **CGPA: 8.11**
- **Pre-University** 2022
  BGS College **84%**
- **SSLC** 2020
  Jaycees School **81%**

SKILLS

- **MS Excel**: Pivot Tables, XLOOKUP, INDEX-MATCH, SUMIFS, COUNTIFS, Data Cleaning, Charts & Dashboards.
- **Database**: PostgreSQL, SQL, JOINs, CTEs, Subqueries, Window Functions, Aggregations.
- **Power BI**: DAX, Power Query, Data Modeling, Interactive Dashboards, KPI Reporting.
- **Python**: Pandas, NumPy, Data Cleaning, EDA.
- **Analytics**: KPI Analysis, Trend Analysis, Data Validation, Data Visualization, Business Insights, Reporting.
- **AI Tools**: ChatGPT, Gemini, Claude, Perplexity, GitHub Copilot**.**

PROJECTS

Hospital Emergency Room Analytics Dashboard

- Developed an interactive Excel dashboard to track 7 healthcare KPIs using 4000+ patient records analyzing admissions,waiting times and referrals.
- Cleaned and analyzed data using Power Query, Pivot Tables, and charts to identify patient trends and admission patterns.

Online Book Store Analytics

- Analyzed 3 tables with 1,500 records using SQL to study sales, customers, revenue, and inventory.
- Used JOINs, subqueries, GROUP BY, HAVING, and aggregate functions to find useful actionable insights.

Business Performance Dashboard

- Built an interactive Power BI dashboard to analyze sales, revenue, customer performance and KPIs.
- Used Power Query and DAX to clean data, create calculations, and identify important business trends.

Equity Research & Capital Allocation Analysis

- Analyzed 200+ companies based on financial performance, valuation, and business factors to identify investment opportunities. Applied research-driven investment strategies, achieving approximately 70% returns on personal investments.

CERTIFICATIONS

- Microsoft Excel - Beginners to Advanced(skill Course).
- Microsoft Power BI (skill Course).

ADDITIONAL INFORMATION

- Hobbies**:**Stock Market, Content Creation (YouTube).
